RE: **Replacement Pages for Updated 2005 Risk Assessment and Conceptual Risk Management Plan for Selected Areas in Solutia – J.F. Queeny Plant Submitted on January 25, 2007**

It was identified that there are two editorial errors in the Updated 2005 Risk Assessment and Conceptual Risk Management Plan for Selected Areas in Solutia – J.F. Queeny Plant submitted on January 25, 2007. Those include:

- Telephone number of URS in cover pages, and
- EPA inhalation slope factor for benzene in Table 1, Appendix F.

The revised pages are included. Please replace the revised pages with ones in the report. Please note that the change in Table 1 has been approved by EPA.

*Replacement page added  
to report*
